UK Approved Body Authorised
by the MCA

The Mark of Conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-control phase module (D, E or F) of Schedule 2 of the Merchant Shipping (Marine Equipment) Regulations 2016, as amended is fully complied with and controlled by a written inspection agreement with an approved body. The product liability rests with the manufacturer or his representative in accordance with the Merchant Shipping (Marine Equipment) Regulations 2016.

This certificate is valid for equipment, which is conform to the approved type. The manufacturer shall inform DNV UK Ltd. of any changes to the approved equipment. Should the specified regulations or standards be amended during the validity of this certificate, the product is to be re-approved before being placed on board a vessel to which the amended regulations or standards apply. This certificate remains valid unless suspended, withdrawn, re-called, or cancelled.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV AS, its parent companies and their subsidiaries as well as their officers, directors and employees ("DNV") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Product description

“AYRLITE 2071”

is a panel comprising of a non-combustible aluminium honeycomb core with cell diameter from 6.35 mm to 12.7 mm faced with aluminium sheets of minimum 0.3 mm thickness. One or both sides can be faced with microperforated aluminium sheet of minimum 0.8 mm thickness and with a maximum hole diameter of 0.8 mm.

Min. overall panel thickness is 6 mm.

The panels may be coated with combustible material as follows:

- Optional powder coating (0.55 µm) to one or both sides.

Application/Limitation

The panel surface is approved as a low flame spread material, not generating excessive quantities of smoke nor toxic products in fire.

Any adhesive used, other than the one used during testing, has to be tested for low flame spread characteristics according to IMO FTP Code Part 5 and be approved according to the Marine Equipment Regulation and bear the Mark of Conformity.

Any additional surface materials used have to be approved for smoke and toxicity and low flame characteristic (IMO 2010 FTP Code parts 2 and 5) when required according to relevant rules.

The panels may be regarded as C-class division (Ref. SOLAS II-2 Reg. 3.10 and IMO MSC/Circ. 1120).

Each product is to be supplied with its manual for installation and maintenance.

Type Examination documentation

Test report No. PX13977 dated 14 September 2011 from SP, Borås, Sweden.
Test report No. PX13977-1 dated 14 September 2011 from SP, Borås, Sweden.
Test report No. PX18750-2 dated 14 March 2012 from SP, Borås, Sweden.
Test report No. PX18750-4 dated 14 March 2012 from SP, Borås, Sweden.
Test report No. 5P07468-1 rev.3 dated 31 October 2016 from SP, Borås, Sweden.
Test report No. O100611-1112780-4 dated 1 April 2022 from RISE, Borås, Sweden.
Test report No. O100611-1112780-5 dated 31 March 2022 from RISE, Borås, Sweden.

Assessment report No. 5P07468-3 dated 31 October 2016 from SP, Borås, Sweden.

Tests carried out

The aluminium honeycomb core has been tested according to IMO FTPC Part 1 and found to be in compliance with IMO 2010 FTP Code Ch.8.

The panel with powder coat has been tested according to IMO FTPC Part 5 and Annex 2.2 and found to be in compliance with IMO 2010 FTP Code Ch.8 and Part 5 and Annex 2 item 2.2 and item 2.3.

Marking of product

The product or packing is to be marked with name and address of the manufacturer, type designation and the Mark of Conformity (see front page).
